

Brake Controller Trouble Shooting Guide (For Hayes, Energiser III Controller)

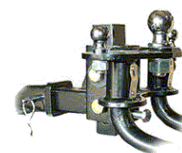

Problem	Solution
<ul style="list-style-type: none"> Red light on Controller not coming on when brake pedal pressed. 	<ul style="list-style-type: none"> Check that brake lights on vehicle are working, if not replace "Stop Light Fuse". Check fuse in Blue holder in cable 20cm from back of controller under dash.
<ul style="list-style-type: none"> Red light working with brake pedal but caravan brakes not working correctly 	<ul style="list-style-type: none"> Check positioning of "White Lever". Re-Adjust "Gain Control", black wheel.
<ul style="list-style-type: none"> Braking of caravan very severe. 	<ul style="list-style-type: none"> Check positioning of "White Lever". Re-adjust "Gain Control", black wheel.

400, 550 and 750lb Weight Distribution Hitches

Whether your towing a 16' Pop-Top or a 26' Full Van, improve your towing experience with an EAZ-LIFT Elite Hitch today, available for ball weights of 180kg, 250kg and 350kg.

Weight distribution hitches transfer the extra weight added to the back of your vehicle by the ball weight of your caravan to all wheels of vehicle, thus providing a level ride to your car and caravan combination, restoring steering geometry and providing positive towing control.

FRIDGESWITCH

Have you ever stopped for lunch or gone sight seeing and forgotten to turn your caravan fridge off from the 12 volt circuit? When you returned to your car, was the battery flat?

- No more flat batteries when the fridge is left on.
- Only one auxiliary line needed. No relays turning your light circuit off as well.
- Automatically turns your caravan fridge on and off.
- Easy 15 minute installation.

Fridgeswitch has an inbuilt electronic movement and vibration sensor which switches the 12 volt circuit of the caravan's 3 way fridge 'on' when the vehicle is moving and turns the fridge 'off' when the vehicle stops.

Rear Vision Systems
